Guests:

Chris Parts – AIA MD

The purpose of this extended four hour meeting was to be a work session to resolve issues and work through the International Green Construction Code (IgCC). The work was not completed in this session so a follow up meeting was held on October 2, 2014. The results of these meetings were written into the final version of the Council's Supplement to the IgCC. Due to the complexity and length of the meeting, formal notes were not recorded.

The next regular meeting of the Council is scheduled for October 24, 2014 in Room 318 in the Lowe House Office Building.
